HASCOMBE FOUNTAIN UPDATE

Since being instructed by Waverley, following direction from the Drinking Water Inspectorate (DWI), to shut off the fountain's water supply, the Parish Council has been working with Waverley to identify a way to restore it. Two potential options are currently being considered:

- installing a structure to prevent the collection of water; or
- preferably, implementing measures to ensure the water meets drinking water standards.

In order to satisfy the DWI, an initial series of three water quality tests is required, each approximately three weeks apart. These tests can only be undertaken when the spring is at its lowest flow, typically from September onwards. Testing must be carried out under controlled conditions by an accredited laboratory and will assess over 100 potential contaminants. The cost is approximately £700 per test.

The Parish Council will consider at its May meeting whether to allocate funds from reserves to cover this initial testing.

We pray for those who are ill, and those who care for them.

Eternal God,
 whose Son Jesus Christ is the way,
 the truth, and the life:
 grant us to walk in his way,
 to rejoice in his truth,
 and to share his risen life;
 who is alive and reigns, now and for
 ever. Amen.
